#### Meet some of our dedicated volunteers

Back row: Richard Labrozzi, Jim Reynolds, Susan Dunn, Tom

Morrison , Noah Nason

Middle row: Louanna Breeder, Curt and Margaret Dierdorff, Pastor

**Dennis DiMauro, Charles Ellerbe** 

Front row: Bev Conolly, Vicky Samuel, Beverly Ellerbe

Gainesville Health & Rehab wishes to thank all of our volunteers for their hundreds of hours of dedication to our residents. Their lives are better with the gift of your time and talents in our building.

## Rehab Success Story

# **Linda Furlong**

On April 27 of this year Linda Furlong and her husband, Gary, were driving back from Delaware, after visiting her 94 year-old father, when their lives were turned upside down.

They were traveling on a quiet two-lane road in Maryland when another car stopped at the stop sign of a cross street and pulled out in front of them, giving Gary no time to react.

Fortunately, everyone survived the crash, but Linda, who was the passenger in her vehicle, was sent to the hospital with a broken left ankle and wrist, broken sternum, broken top right and left rib, and two compression fractures in her neck. Her husband walked away with a lot of serious bruising, but no broken bones. None of her injuries required surgery, although she remained in the hospital until May 3<sup>rd</sup>.

With her home in Manassas, GHRC was a convenient location for her husband, daughter, Katie, who lives at home, and son, Scott, who lives with his family in Haymarket, to visit while she recuperated from her injuries and participated in therapy. She arrived at GHRC with a splint on her left arm and leg and a neck brace. Little by little she began to heal. She was able to use a platform walker, but could put no weight on her wrist or ankle.

Linda said, "I'm glad I'm here. This has been a very positive experience. I have enjoyed it here. I love my therapists, Ash and Andrea. They are both very supportive and very helpful. They encourage me to do all that I can do. I am very motivated and I will push myself."

Ashraf Sefain, PTA, commented, "Mrs. Furlong is one of the most motivated patients I've ever worked with. She always does her best in physical therapy and follows directions carefully to maintain her safety. She's agreeable, pleasant, and fun to work with."

Andrea Espinoza, OT, added, "Mrs. Furlong has been a pleasure to work with. She is motivated and determined, qualities that define a patient with unlimited potential."

After the follow-up appointment with her orthopedist five days later, big changes began to happen. She got a boot on her left foot and was able to be weight-bearing. She went from using the platform walker, to using a quad cane, to using a point cane. She can transfer herself and is happy to be less dependent on others for assistance.

Originally from Delaware, Linda and Gary moved to Virginia for his job with American Airlines 38 years ago, in 1978. Linda worked for Prince William County Schools as a special education assistant, and a preschool teacher at Little Elves Preschool, where she worked with 3 and 4 year-olds.

Linda has a most unusual passion – she LOVES power tools! She says they come in handy during her semi-annual mission trips. She is part of a START team, or short-term aide relief team with St. Thomas United Methodist Church in Manassas. She has been to Florida, North Carolina, Georgia, Maryland, and Mississippi since her retirement in 2007.

Reading and spending time with her family are also important to Linda. She has another son, Kurt, in Glen Allen, Virginia, and a total of six grandchildren. She is going to miss everyone here, but she looks forward to going home to be with her family.

GHRC is proud of Linda and all that she has accomplished while here for therapy. She is an inspiration to us all!

By Lynnette Esse, Activity Director

### **Birthdays**

In astrology, those born between May 1–20 are Bulls of Taurus. Bulls show a steady persistence in endeavors both professional and personal, and after working hard, they are not shy about rewarding themselves for a job well done. Those born between May 21–31 are Gemini's Twins. The Twins represent energetic communication and interaction. Curious Geminis love to collect and share information. Witty and intellectual, they attract many friends, mentors, and colleagues.

# GHRC Celebrates Better Hearing & Speech Month May 2016

Karen Singletary-Fuller, MA CCC/SLP celebrates 20 years of experience!

Congratulations, Karen!

Anne Cruz, LPN
Our New Quality Assurance Process
Improvement (QAPI) Nurse

Anne Cruz transitioned from being a nurse on the unit to her newly created position as QAPI nurse in February 2016. She is still feeling her way around her new job responsibilities.

In a nutshell, she tracks and trends all of the concerns that are generated throughout the center. She ensures that the whole building is in compliance with state and federal regulations and company policies. She tracks the hospital re-admission rates.

She also keeps track of all falls, including trends such as the shift, time, location, environmental issues, and what activity was going on during the falls. She looks at predisposing factors such as a change in medication or illness such as a UTI. She ensures that appropriate interventions are in place and that proper documentation has been completed.

Anne began working at Gainesville in a part time capacity in June 2015, transitioning to fulltime in August. Prior to that she was doing home health care at night.

Ever since Anne went on a field trip to West Point at the age of 10, she has wanted to be both a military officer and a nurse. While on that field trip she discovered that there was a way she could do both. During high school Anne attended a vocational school, where she attended classes three days a week and spent two days a week training/working as a C.N.A. in a nursing home. Due to this experience she is totally comfortable with working in this environment.

After high school graduation Anne went to see a recruiter. She found out that she had two choices: she could train to become a combat medic, which might not allow for an opportunity to go to college, or she could become a carpenter and mason. Being a tomboy at heart, and because she had liked woodshop, she chose the latter.

She had a 15 year career with the Army, six years as a carpenter, and 9 years as a nurse. She was picked up for school in Texas, where she trained for ten weeks to become a combat medic and earned her EMT certification. A transfer to Walter Reed National Military Medical Center in Bethesda, Maryland led to 52 weeks of training to earn her LPN. She was deployed to Iraq, Korea, Germany, and Thailand. In her last assignment she was in charge of a 28-bed same-day surgical clinic at Ft. Meade, where she supervised a staff of both military and civilian personnel.

Having met three times before, Anne and her husband, Mike, who was in the Air Force, actually re-met and began dating in 2003 when she was in school in San Antonio. He went back to California and she went on to Washington, D.C., but after a year of long distance romance, the two were married. Their son, Michael, was born in 2009.

Anne retired from the Army in 2011. She says, "I don't miss military life, but I sometimes miss the structure." Her goal is to finish nursing school and earn her RN.

GHRC is happy to have found someone of her caliber and experience to fill this challenging new role. Please join us in welcoming Anne to our GHRC family!

Azaleas burst forth
In pink, red, and white flowers
Brightening my day

By Colin Kelly

#### **Dandelions**

Most people hate them But I love dandelions Their color brings joy

By Lizzie Cobb

### **GHRC Celebrates Mother's Day**

### Vera Bradley - Queen of Gainesville

"Always worried about her kids like a true mother."

"Always worried about her babies. I just love her to pieces."

"Loves kids so much."

"Very nice to the staff."

"Such a sweet lady. I love talking to her."

# Kathleen McKenna – Princess of Fairview

"Very sweet lady."

"She is very friendly, always has nice things to say, always has a smile on her face, and is very helpful."

"Though many bumps on the road to her recovery, she keeps a positive outlook and always has a smile on her face."

# Carmella Sternecker – Princess of Clairmont

"Mrs. Sternecker is a very lovely lady. She is always thinking of us over her own needs. That is the sacrifice of a mother – putting others before herself."

"Always laughing, lots of energy."

"She is very sweet and loving and kind."

"She is very polite and courteous to everyone."

"Very sweet lady."

# **Spring Cleaning**

Now is a great time to clean out your closets and swap out your summer and winter clothing. It is also a perfect time to declutter. Personal items should not be left in the bathroom. They should be labeled and bagged and kept in a drawer. Please keep the top surface of the air conditioner unit clear for everyone's safety. Thank you!
